Carlson was responsible for the establishment of the CSU-USPHS (Collaborative Radiological Health Laboratory) on the campus and was its director from 1962-65. He also initiated the Radiation Training Programs at the University.

A member of the AVMA, Dr. Carlson is one of the five original founding members of the American Board of Veterinary Radiology—the first board in a clinical field in veterinary medicine recognized by the AVMA.

A charter member of the American Veterinary Radiology Society, he served as its vice-president, president-elect and in 1965, as president. He also was a founder and held national office in the Educators in Veterinary Radiological Science Society. Dr. Carlson has been a strong supporter of continuing education in the veterinary profession, having personally conducted 18 one to four-day sessions throughout the United States.

The future president of the University of Wyoming is a Fellow in the American Association for the Advancement of Science and is on the national board of trustees of the Nuclear Medicine Society of America. He also was the first chairman of the Colorado Radiation Advisory Committee.

Dr. Carlson is a member of the Colorado Veterinary Medical Society, the American Association of Academic Clinicians, the Radiation Research Society, Sigma Xi, Phi Zeta, Phi Kappa Phi, the Colorado Nuclear Medicine Society and an associate member of the Colorado Radiological Society and the Colorado and Denver Medical Societies.
